Lan Kwai Fong | Central

For almost three decades, the iconic California Tower has been synonymous with fine dining, extraordinary entertainment, and world-class nightlife. Lan Kwai Fong's premier landmark revamped once again with brand new restaurants, bars, clubs and lifestyle brands.

An aerial night view of a dense city skyline, with the California Tower as the central focus. The tower is a tall, slender skyscraper with a distinctive top section. The surrounding buildings are illuminated, and the city lights create a vibrant atmosphere. The sky is dark, and the overall scene is a mix of architectural details and urban density.

## Beef & Liberty

### Dining - Burgers & Beers

Beef & Liberty loves hamburgers more than anything else in the world. Their love of 'all things burger related' inspired them to spend years researching what makes the perfect hamburger - meat-to-bun ratios, patty recipes, grind coarseness, Maillard reactions, and cheese meltability to name but a few. Beef & Liberty is the product of that obsession - those technical details are exactly what they are all about. It is this passion that is made them want to share their burger addiction with the good people of Hong Kong.

Their name originates in 18th century Britain where the leading members of London society gathered in beefsteak clubs to partake of great food, fine booze and entertaining company. The brilliantly named Sublime Society of Beefsteaks was the most famous of all the clubs and its motto was "Let beef and liberty be my reward". They loved the line so much they took it as their name.
